SOURCING SOLUTIONS

GLOBAL OPERATIONS

We deliver high-value, tailored global sourcing solutions.

 <p>REDUCE TOTAL COST</p>	 <p>IMPROVE DELIVERY</p>	 <p>LOCATE RAW MATERIAL (METALS)</p>	 <p>IDENTIFY LABOR SOLUTIONS</p>
<p>International capital and tooling costs are often a fraction of domestic costs, making more dollars and sense for your business.</p>	<p>With nearly no logistical delays and more than a month of inventory in our local warehouse, our deliveries are 100% on time.</p>	<p>We have strategic relationships with mills worldwide, allowing almost unlimited volumes with short lead times.</p>	<p>By helping you outsource around the globe, we can reduce labor demands in tight markets.</p>
 <p>MANAGE VALUE-ADDED ACTIVITIES</p>	 <p>REDUCE RELIANCE ON CHINA</p>	 <p>EXPAND CAPACITY</p>	 <p>IMPROVE PRODUCT DESIGN</p>
<p>Our project managers can assist with all aspects of your sourcing solutions to ensure smooth delivery.</p>	<p>We can help reduce your dependence on China while providing improved value and lower costs.</p>	<p>Through our network of warehousing solutions, we can assist in expanding your capacity.</p>	<p>With extensive engineering expertise, we can help identify improvements to your product design.</p>

Leave behind status quo sourcing solutions and make sure you're prepared for the long haul. Stratic knows sourcing is critical to ensuring smooth, cost-effective operations. Even more, the best sourcing can help you optimize your manufacturing processes and seize unique opportunities.

When you work with Stratic, you gain a trusted partner that can help you navigate the ups and downs of the global supply chain. We'll identify problems, evaluate options, align with your goals then implement a strategic set of needs-based solutions to make it all happen.

SPECIALTY INDUSTRIES

OUR PROCESS

**Our holistic process
provides customers
with optimized solutions
for their needs now
and in the future.**

It starts with listening to understand your problem.

Before we tailor our RFQ approach to your needs, we review your specifications, ensure understanding and provide engineering concepts to reduce the total product cost.

Once we are aligned, we bid projects out to rigorously audited, pre-approved, qualified and risk-balanced partners in a secure NDA environment.

We evaluate bids on best overall value and fit based on quality, cost and delivery. Then we present you with a detailed quote for approval.

Upon award, we begin our Advanced Product Quality Planning (APQP) process—a detailed, quality-focused launch methodology that ensures successful project execution.

During production, we have rigorous quality audits on every load in-country and at our local midwestern warehouse.

GLOBAL NETWORK

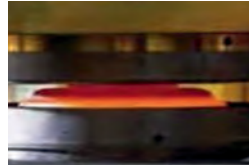

OUR SPECIALTIES

			
STEEL MILLS	CNC LASER	CNC TURRET	BEARINGS
			
SHEET BENDING	STAMPING	MANUAL WELDING	ROBOT WELDING
			
CNC BENDING	CNC VERTICAL/ HORIZONTAL	CLOSED DIE FORGING	SAND CASTING

PRESSURE
DIE CASTING

We are your global sourcing solution for these processes.

FORGING		OPEN DIE	CLOSED DIE	ROLLED RING
Over 22 forging suppliers worldwide, including EMEA, India and China	PROCESS			
	EXAMPLES			

CASTING		SAND CAST	LOST WAX	PRESSURE DIE
Over 30 casting suppliers worldwide, including EMEA, India and China	PROCESS			
	EXAMPLES			

LOGISTICS AND WAREHOUSING			
MANAGE INBOUND GLOBAL SUPPLY CHAINS	DEVELOP "KIT" SOLUTIONS	BREAKDOWN PACKAGING	EXECUTE LIGHT ASSEMBLY

One of our main sourcing hubs is located within one of the largest exporters of raw and machined metals in the world—India.

HUB HIGHLIGHTS

We source from the second largest exporter of raw and machined metals in the world.

Currency value has favored the US dollar over the past decade.

India is English-speaking and enjoys the status of “Most Favored Nation.”

We boast abundant engineering resources and experience.

Our suppliers are multinational, supplying leading companies in the United States, Europe and around the globe. Plus, they have the certifications needed to be top rated suppliers.

Our sourcing, scheduling, program management and quality control teams all have a local presence in India.

We have experience working with suppliers in multiple sectors, including agriculture, construction, mining and general industrial sectors.
